MEMORANDUM FOR: [redacted] 25X1

THROUGH :

SUBJECT : Microwave Line North of Serov

REFERENCE : Requirement NSA/SPO/R-094-72
NPIC Project 251320

1. In response to the referenced requirement a search was made of available photography of the area north of Serov, USSR, principally between Komsomolskiy at 61-18-30N 063-20-00E and Igram at 63-11-00N 064-26-00E. The photography used for this analysis [redacted] 25X1D
[redacted] 25X1D

2. The stations covered by this memorandum, with their BE numbers and coordinates, are as follows:

Komsomolskiy Radio Relay Station [redacted] 25X1A
61-20-30N 063-17-00E
Khanlazin Radio Relay Station South
61-47-40N 063-22-50E
Khanlazin Radio Relay Station Northeast [redacted] 25X1A
62-11-50N 063-29-00E
Shukhtungort Microwave Facility,
62-28-40N 063-46-00E
Punga Gas Field Radio Relay Station
62-45-30N 064-20-00E

[redacted] 25X1D

Declass Review by NIMA / DoD

GROUP 1
Excluded from automatic
downgrading and
declassification

Approved For Release 2003/12/19 : CIA-RDP78T04759A010000010121-2

11 January 1972

SUBJECT: Microwave Line North of Serov

4. Khanlazin Radio Relay Station Northeast and Khanlazin Radio Relay Station South were observed Both contained lattice towers, but the antenna orientations could not be determined.

5. Shuktungort Microwave Facility was observed It had a lattice tower, but the antenna orientations could not be determined.

6. Punga Gas Field Radio Relay Station was newly identified during this study on photography It is 23 nautical miles north-northeast of the Shuktungort facility and 13.5 nautical miles north-northwest of Nerga. The station appeared to be the northern terminal of the microwave line, indicating that this line served the gas field. The station had a lattice tower with one probable R-60/120 antenna dish which appeared to be oriented south-southwest.

7. This project is considered to be complete. Questions regarding this project may be directed to the project coordinator of the Special Studies Branch, WGD/IEG

Chief,
NPIC
